A company

A family

In 1946 the first company was founded by Attilio Codognotto

In 1975 Codognotto becomes an international Holding

The Actual CEO is Maurizio Codognotto
We have always believed and invested in innovation.

We’ll never change our values but we will continue to improve constantly.

- Progressive conversion to alternative fuels
- 12 Research & Innovation Projects financed by the EU in the last 4 years
- Continuous cooperation with more 40 Research Centers and Universities
- Co-founders of the Master in Transport & Logistics of the IUAV University of Venice
- Ongoing test of platooning and autonomous driving
Codognotto Group

«It has worked hard to become one of the most dynamic realities in the European transport and logistics sector; attracting attention for its strong growth and constant desire to innovate and develop. These characteristics are the key to understanding the expansion that the Group has had over the past 15 years. Today Codognotto is unanimously recognised as one of the leaders in the sector, showing its strength when it is faced with new challenges ».
