Consulting & Engineering

You can experience the best of both worlds!
Making IT more reliable, responsive and resilient.

We deliver best-in-class performance testing, monitoring, optimization and automation of mission-critical applications for the most demanding enterprise customers worldwide.
Performance Engineering Services

**Design & Validation**
Performance testing and tuning, continuous testing quality gates set-up, autoscaling design, validation of performance-critical service architectures.

**Observability**
Digital performance management, end-user experience management, IT performance analytics and data visualization.

**Self-Driving Ops**
AIOps, dynamic optimization, canary deployment and self-remediation, automatic discovery and real-time service mapping.

**Planning & Control**
Capacity management, right-sizing, accounting, chargeback and cost control.

**Key Partners**

Analytics

We master data lifecycles, analytics technologies, and machine learning frameworks to deliver end-to-end analytics solutions at scale, accelerating enterprise business outcomes.
Analytics Services

Data Engineering
Cloud, hybrid, and containerized architectures, scalable pipelines, data platforms, real-time Big Data integration and noSQL databases.

Data Science & Machine Learning
Algorithms and best of breed technologies in machine learning, graph analysis, optimization, causal inference and quantum AI.

Two-way Business Translation
Transforming business needs by breaking requirements down to develop highly usable, day-by-day solutions at enterprise scale.

MLOps & Analytics Processes
Machine learning and analytics process development with advanced DataOps and MLOps frameworks and platforms.

Key Partners
aws, CLOUDERA, Google Cloud, DataRobot, ASCEND.IO, StreamSets, splunk>
User Experience, Front and Center.

ContentWise is the AI-powered customer experience company that provides leading video operators, digital publishers and online retailers with the software and expertise they need to create rich, personal and smart CX at every digital touchpoint.

- UX Engine
- Metadata Foundry
- Data Insights
- CX Personalizer
- Catalog builder

Key Customers: AT&T, MEDIASET, PCCW, sky, TELECOM, Telefónica
We are unique among cybersecurity consulting firms. We combine technology engineering, intelligence expertise and data science to help companies dynamically manage their cybersecurity posture.
Cybersecurity Services

Cybersecurity Engineering
Full-stack enterprise cybersecurity systems design, setup, integration, and maintenance. Deployment of custom or packaged HW/SW for critical service architectures.

Cybersecurity Risk Consulting
Digital risk quantification, design of governance and management processes. Planning and control of large impact remediations.

Cybersecurity Support
Assessment of cybersecurity assets, posture, automation, and optimization. Continuous optimization, managed services, and level-3 technical support.

Fraud, Threat & Intelligence
Fraud detection, prevention, and protection for web & mobile applications. Threat analysis, outlier detection, behavioral intelligence and risk scoring.

Key Partners
At your side, fighting against online fraud.

Founded in 2014, Cleafy has established itself as one of the most advanced solutions for fraud detection, protection and response. Moviri became a strategic partner and investor in Cleafy in 2017. Today, Cleafy protects 60+ million users on behalf of 40 financial services customers.

Platform Partners
Internet of Things

Full-stack IoT solutions. New business insights.

We design future-ready IoT architectures, assemble enterprise-grade IoT data pipelines and deliver the insights our customers need to implement IoT initiatives.
Internet of Things Services

**IoT Consulting**
Use case identification and refinement, solution blueprinting, IoT hardware, software and cloud services selection.

**IoT Analytics**
Analytics and AI-on-Edge capabilities to optimize IoT assets, automate processes and support business decisions.

**IoT Security**
End-to-end IoT security with anti-tampering measures on devices, advanced cryptography and data security.

**End-to-End System Integration**
Full-stack enterprise IoT systems design, setup and maintenance, deployment of custom or packaged HW and SW.

great teams are built not only on talent but also on teamwork, fun, and shared positive experiences:
• 3-day company summer retreat,
• Beer Fridays on our rooftop,
• Moviri olympic games during our yearly kick-off...
...and much more!

Don’t be surprised if your colleagues become your friends!
What We Are Looking For

**Passion**
It’s tough to solve hard problems and stay ahead of the technology curve without a good dose of passion for technology and research.

**Drive**
You will be asked to drive complex tasks end-to-end, even in areas where you may not have previous experience.

**Curiosity**
We are solving tough problems leveraging the latest technology and research, your curiosity will be key in providing our team a fresh perspective.

**Humbleness**
We have internationally-recognized experts in our team. Still, we stay humble and listen to feedback from all.
Join Our Team

Talented, curious, and passionate people who have great ambition for what they want to achieve in the future.

Here, you can make a difference!
Transforming business.
One company at a time.
