**BECKHOFF**

## New Automation Technology

At Beckhoff, automation is our calling. We empower engineers to specialize and succeed as industry leaders by harnessing new forms of technology, embracing open standards and solving the world's most complex problems.

Beckhoff is a family company, founded and led by engineers. We create advanced controls, communication, IoT, and motion technologies that provide custom tools to overcome unique challenges in the digital revolution.

Are you ready to kickstart your career with a high-tech leader in the automation industry? Here at Beckhoff, we give you the individual freedom to implement your knowledge, ideas, and innovative thoughts in our exciting projects, and our specialists value the opportunity to offer intensive, one-to-one supervision for both undergraduate and postgraduate students. This allows you to accelerate your professional and personal development during your time at Beckhoff.

Be part of a growing family

As an owner-managed family company, Beckhoff empowers its employees to fulfill their potential. Beckhoff supports its employees, personal growth as well as their professional development with:

- exciting tasks in an international environment with the tech leader in automation
- international induction program at our headquarters in Verl
- continuous training and education with intensive and individual support from our experienced specialists
- a friendly working atmosphere and a family-oriented corporate culture

## Do you love innovation and technology?

Are you looking for an opportunity to work with one of the fastest growing technology companies in the automation and control industry?

You can become part of our team by:

- writing your thesis with us
- dual training experiences
- direct placement through ad hoc professional development
