Let's Solve Water

ENGINEERS, LET'S SOLVE WATER TOGETHER!
LEARN HOW.

xylem
Let's Solve Water

Are you ready to Solve Water with Xylem?

#letssolvewater #sustainability #innovation #diversity&inclusion

We're a global team unified in a common purpose: creating advanced technology solutions to the world's water challenges. Developing new technologies that will improve the way water is used, conserved, and re-used in the future is central to our work. Our products

and services move, treat, analyze, monitor and return water to the environment, in public utility, industrial, residential and commercial building services settings. We do not do this alone, but together with 1.000 colleagues in Italy and over 23.000 colleagues worldwide.

WE OFFER YOU MORE THAN JUST "A JOB"

Professional Development to support our employees' professional growth and continuous learning.

Total Rewards with comprehensive programs for compensation, benefits, recognition, learning and development, work-life integration and corporate citizenship

Watermark, Xylem's corporate social responsibility program. Employees have the opportunity to learn and volunteer on various water-related projects.

Employee Networks from diverse backgrounds, including Women's, LGBT+ and Allies, Veteran's, People of Color and Allies, Emerging Leaders, and Working Parents Networks.
