

Testing, inspection and certification
for global industrial manufacturers

Testing, inspection and certification
for global industrial manufacturers

AC&E is an internationally accredited Laboratory and Notified Body.

For 25 years, it has been assisting manufacturers of machinery and equipment in ensuring the compliance, reliability, and safety of their products.

Strategically positioned offices in key global markets enable AC&E to provide worldwide coverage, ensuring every industrial product meets the highest standards of electrical, mechanical, and OT cybersecurity safety.

AC&E advantages

Certified laboratories

AC&E is an ISO/IEC 17025 accredited laboratory by PJLA, accreditation number #113455 and certificate #L23-279. All tests are carried out with full compliance instrumentation calibrated annually.

Accelerated time to market

AC&E accelerates the certification process, significantly reducing the time required to make products compliant and ready for global markets.

Inspectors located globally

AC&E inspectors, present throughout the world, offer local support for audits and certifications, ensuring a fast service that complies with international regulations.

Worldwide Certifications

AC&E offers globally-recognized certifications, ensuring products comply with local regulations.

Join our team

Thanks to the talent and dedication of our team, AC&E has become a global benchmark for industrial safety and product compliance.

Join us and bring your talent to a company that values every individual's contribution while driving innovation and growth across the industry.

Our values

Innovation and Growth

At AC&E, we believe in continuous innovation and professional growth. We offer a dynamic work environment where new ideas are encouraged and every team member's contribution is valued.

Growth and Learning

We invest in your future. We offer continuous training programs and professional development opportunities to ensure you stay up to date with the latest industry trends and technologies.

Dynamic Work Environment

Working with us means joining a diverse, international team that values collaboration, respect, and an inclusive environment where everyone can thrive.

Global Projects

Work on global, challenging projects that expand your skills and make an impact. With offices worldwide, you'll grow in an international environment.

Thank you for your attention.
