In 2015 we produced:

- More than 160 years of history

- 1900 (+270) acres of owned vineyards

- 32,000 acres cultivated

- 16 autchthonous grape varieties

- 43,000 tons of sugar beet

- Over 4,000 tons of durum wheat

- 1.5 billion cups of coffee!

- circa 1.5 million dishes of pasta!

We use some production surplus to produce electricity from renewable energy and raw materials that otherwise would be wasted.

4.800 hectares in Romania

8.200 hectares in Italy

Our story began way back in 1851, with the purchase and reclamation of Ca’ Corniani, over 1.700 hectares of property. Part of the milk collected by the Farm called “Cesarolo” is processed in the nearby craft cheese factory, where we produce mozzarella, cheese and ice cream.

Each year we breed about 7,000 animals. Mostly are buffaloes, cows and pigs. Part of the milk collected by the Farm called “Cesarolo” is processed in the nearby craft cheese factory, where we produce mozzarella, cheese and ice cream.

Since that outstanding debut, the Company has taken steps to expand and diversify, applying the most modern and ambitious techniques, to become one of the undisputed leaders of European agriculture.

The responsibility which has guided us so far, coming from the prominent position which Genagricola holds in Italian agriculture, has recently also been transformed into a commitment to contribute to the sustainability of the company’s activities, in line with its dual aspect with regard to both product quality and safety at work.

The company’s core business is divided into four different areas:

1. Wine production and marketing of some of the most prestigious Italian wines;

2. Crops growing highly specialized productions for seed market. Wheat, Corn, Soybean, Rice, are our main crops, with a total of 4,800 hectares in Emilia Romagna and Lazio.

Over 90% of the area cultivated by Genagricola is dedicated to this type of cultivation.

3. Animal breeding, with one of the largest pig farms in Friuli, plus dairy cows and buffaloes;

4. The production of renewable energy through the re-use of agricultural processing surplus.

Our vision is clear: we want to be an example of a farm in the world, where the objectives are pursued in a sustainable way, which involves the well-being of the land, the relationships with the local communities and the cultivation of good land.

We aim to be a model of enterprise in the history of agriculture, and to be the symbol of a high level of quality for the company’s products and services, with an attention to the weaker, through support and integration with its dual aspect with regard to both product quality and safety at work, one of the themes most delicate of the moment.

Our history is the history of a unique company that has been able to go on year after year. These are called the “3 ess”, which we call the “3 E’s”.

Una ricca selezione di vini per ogni occasione

A rich wine selection for every moment

Sono 10 i Marchi vitivinicoli che fanno capo a Genagricola, una delle aziende più grandi e importanti del settore vitivinicolo italiano. Ogni Brand ha la propria identità e la propria filosofia produttiva: TORRE ROSAZZA produce vini di alta qualità e soprattutto grande piacevolezza dei vini sono il biglietto da visita dell'Azienda.

TORRE ROSAZZA: la sicurezza di fare la scelta giusta.

Da anni in vertice della critica italiana e internazionale, nel 2016 viene addirittura inserita con uno dei suoi vini bianchi, spumante di alta qualità, nella prestigiosa TOP100 di WineSpectator.

BRICCO DEI GUAZZI: il Piemonte scopre nuovi orizzonti.

Il frutto di un territorio fantastico, la ricerca della rara e straordinaria qualità, e soprattutto Albarossa, vitigno alla base dei suoi vini, Bricco dei GuaZZi è il marchio di Genagricola specializzato nel vigneto Piemontese.

V8+: la spumantistica giovane.

Dagli anni '60, una stella nel firmamento del vino italiano, l'assoluta dominazione del suo marchio V8+ è testimoniata dagli 1000000 di bottiglie vendute al mondo. Ogni anno, in giro per il mondo, si fanno delle degustazioni video che raccogliano e mostrano il marchio V8+ che affianca la caffetteria Veneto.
